Russians On Offensive Throughout Eastern Front Except Near Dvinsk—British Blockade Bulgar Ports, and Russia States She is At War With Bulgarians—Teutonic Losses in East are Heavy—Bitter Fighting Along West Front—Report Says Russian and Italian Ministers to Leave Greece.

By Associated Press.
Athens, October 15, via Paris, October 16. — Forty thousand Bulgarian troops are reported to have begun an attack on the Itarda bridge, between Valandovo on the railroad running from Saloniki into Serbia. The point of attack is about 20 miles north of the Greek border. The Bulgarians apparently are attempting to cut the railroad and prevent supplies from reaching the Serbians.

Petrograd, October 16. — With the exception of Dvinsk, on the northern end of the Russian battle front, where fierce artillery battles continue, the Germans appear to be on the defensive along the entire eastern front.

Russian military officials say they have obtained information that the German armies have been ordered to take Dvinsk at any cost.

The German losses are reported to have been extremely heavy.

London, October 16. — Hard fighting has been in progress on the Lorraine front, where the French declare they have repulsed several counter attacks by the Germans on trenches which French troops captured yesterday.

Repulse of a strong German attack in the Vosges also is reported by the Paris War Office.

Former Premier Venizelos of Greece has announced himself, in an interview, as still a strong adherent

of the cause of the entente allies, of whose ultimate success he declares he is more deeply convinced than ever.

Paris, October 16. — Austro-German losses in the campaign against Serbia up to October 14 were estimated at 25,000 officers and men killed and 60,000 wounded, according to a dispatch received today from the Serbian capital.

London, October 16. — A blockade of the Bulgarian coast in the Aegean Sea by the British warships of the eastern Mediterranean squadron was put into effect today.

Petrograd, October 16. — Russia regards herself in a state of war with Bulgaria from the moment the latter country attacked Serbia, according to a statement issued today by the Foreign Office here.

The formal declaration of war is awaiting the conclusion of an exchange of telegrams between Russia and her allies.

Berlin, October 16. — Further progress of the armies of Field Marshal von Mackensen invading Serbia is reported by the War Office today.

The storming of positions south of Semendria and east of Pozarevic is announced.

position east of Auberive, in the Champagne, was repulsed with a loss to the French of more than 600 men in prisoners and three machine guns. German army headquarters announced today.

Amsterdam, via London, October 16. — According to a dispatch from Athens to the Cologne Gazette, the ministers of Russia and Italy are preparing to leave Greece.

The families of the diplomats, the message adds probably will leave the Grecian capital today on a warship bound for Italy.

HANGED

Murphysboro, Ill., October 16. — Joe DeBerry, a negro, was hanged here today for the murder of Mrs. J. H. Martin, wife of a leading attorney of southern Illinois.

Two thousand persons witnessed the execution. Three thousand more obtain admission to the stockade in visitors were in town, unable to obtain which the execution was held.

DENNISON IN UPROAR

Columbus, O., October 16. — The village of Dennison, Tuscarawas county, was declared to be "practically in a state of anarchy" as a result of a wet and dry fight, in a report of State Examiner Howell made public today by the Bureau of Accounting.

He recommended a court investigation of charges and counter charges that have been made against municipal officials there.

TURNER AND DONAHEY IN A SQUABBLE

By Associated Press

Columbus, October 16. — A fight in the Supreme Court between Attorney General Turner and State Auditor Donahey was in prospect today, when Turner announced that he would file a mandamus suit Monday to compel Donahey to pay salaries of about 100 provisional appointees given jobs recently under the industrial commission, and of those appointed patrolmen and janitors about the state house. Turner said he was "tired of giving opinions which Donahey would not follow."

REPORT VILLA WAS EXECUTED

General Francisco Villa, Often "Killed," Now Said to Have Been Court Martialed and Shot By His Own Men—Gen. Rudolfo Fierro Also Said to Be Dead—Sensational Reports Come From Casar Grandes.

By Associated Press.
El Paso, Texas, October 16. — Reports current here for 12 hours that General Francisco Villa, chief of the convention forces in Mexico, had been arrested by his own men at Casas Grandes, convicted and put to death, could not be confirmed here early today.

Messages from Villa, in his private code, were received at Juarez at 4 o'clock yesterday afternoon.

The report that General Rudolfo Fierro was dead, received here last night, came over the military wires from Casas Grandes. It states briefly that Fierro had been drowned while fording a river.

A Mexican who came from Casas Grandes stated that Villa was shot in a fight when dissatisfaction broke

out in the Villa army yesterday. Another report brought by an American said Villa was being tried by a court martial.

The Mexican declared trouble arose when Villa called upon a comrade for a forced loan. A fight ensued and a division in the army resulted.

Seven thousand of the 9,000 troops, according to the report, revolted.

Fierro was notorious as an executioner. The death of William Benton, two years ago, was laid at his door. At one time he is said to have executed 300 prisoners as they stood in a row, as fast as his aide could feed him gun.

Douglas, Arizona, October 16. — General Calles, Carranza commander at Agua Prieta, said today he had been notified that General Villa was enroute from Casas Grandes to Sonora.

RECOGNITION OF GEN. CARRANZA IS AT HAND

By Associated Press.

Washington, October 16. — Favorable responses were received today from all the governments participating in the pan-American conference, which decided to recognize General Carranza.

Secretary Lansing has called a meeting of the conferees next Monday to arrange the form of recognition.

Argentina, Bolivia, Uruguay and Guatemala replied yesterday. Today favorable word came from Brazil and Chile.

Inasmuch as some of the countries still have diplomatic representatives in Mexico, a renewal of relations in an official manner can be arranged in Mexico.

Recognition probably will take the form of presentation of a note to General Carranza through the

medium of Eliseo Arredondo, his representative here, who will depart for Mexico to meet General Carranza.

With the presentation of such a note, an embargo on arms would go into effect against opposing factions and an ambassador or charge d'affaires would be sent as soon as a selection could be made.

CARS PLUNGE INTO WASHOUT, 15 KILLED

By Associated Press.

Randolph, Kansas, October 16. — Four persons are known to be dead and nine are missing as the result of the wrecking of a Union Pacific motor train, which early today plunged through a bridge into Fancy Creek, near here.

The train consisted of a passenger coach and a combination baggage and mail car.

About fifteen feet of the forward end of the passenger car was buried in the flood waters and mud.

Four bodies have been recovered. Nine others are said to be lodged in the buried end of the car.

All attempts to reach these bodies have failed.

Kansas City, October 16. — At least fifteen persons were killed and many injured today when two cars of a motor train on the Union Pacific Railway plunged down an embankment near Randolph, Kansas. A washout caused the accident.

One of the cars was submerged in Fancy Creek, and most of the dead

were drowned.

The train carried about 75 passengers. A three-inch rain fell in the vicinity yesterday.

The accident occurred near the approach to the bridge over Fancy Creek where the track had been washed away.

Railroad officials said the train usually carried many traveling men. Today it had as passengers when it left Manhattan, a delegation of young women school teachers, enroute to the Riley County teachers' convention.

The accident occurred at 7:50 o'clock this morning. At noon four bodies had been recovered. Conductor Knittle estimated that fifteen had been killed.

De Moines, Iowa, October 16. — Reports received by the Union Pacific officials here said that 60 of the passengers of the motor train which was wrecked near Randolph, Kansas, today, were drowned, when the car in which they were riding went through a bridge.

Russians After Three Desperate Assaults Succeed In Penetrating the Teutonic Lines in the Operations Around Dvinsk—Germans Report Aerial Bombardment of Minsk—Activity On East and West Fronts.

London, Oct. 16.—To regain the long line of trenches in Champagne, lost to the French in the latter's recent attack, the Germans have followed up a two days' terrific heavy artillery bombardment by launching a violent infantry attack upon the extreme left wing of the new French front, concentrating it upon Auberville. They succeeded, according to the Paris war office, in gaining a foothold "at one point of their old trenches" west of Auberville. For several days past the German heavy guns have been battering the new French front and the attack against the left wing is believed to be but the forerunner of more attempts here, in the center and on the French right wing.

Simultaneously with the action in the Champagne, the Teutons started a furious drive in the Vosges, bringing them partial success. After discharging an avalanche of shells and bombs of all calibers into the French lines, they dashed forward on a front of a little more than three miles, with the much contested Hartmannsweiler Kopf again as their objective. COUNTY AUDITOR ELECT GLENN M. PINE.

At midnight Sunday night Mr. Glenn M. Pine, who last year was chosen to the office of County Auditor, will become the new County Auditor, succeeding Mr. A. E. Henkle who will have completed six years in the office.

During his incumbency in office Mr. Pine has made many friends by his ever ready willingness to oblige, and his work has always been praised by state examiners in their audit of his books.

Mr. Pine is widely known throughout the city and county, having served four years as City Auditor, a position which he filled with marked

ability, and who for many years has been engaged in the insurance, real estate and loan business.

Owing to his four years' experience in the office of City Auditor and his familiarity with the work which he is to assume, a very successful term is predicted for Mr. Pine.

Mr. Pine will take full charge of the office Monday morning, and will devote his entire attention to the duties of the office.

The new Auditor-elect is genial and courteous and ever willing to oblige—very necessary essentials for the successful holding of public office.

trenches taken from them on Sept. 25, situated on the summit of the hill, were retaken by the attackers, and two points between the summit and the road of Wuenheim were reached. Except for these gains the attack was repulsed.

German Line Pierced.

The Russians succeeded in a third attack in penetrating the German positions over a width of one battalion, northeast of Wesclewo, in the fighting around Dvinsk, according to an admission by the German war office. The statement makes it plain that the Russians are attacking all along the line in this region, and that a single gain is claimed by the Germans in the struggle for the important fortified railway city. Repeated Russian attacks were repulsed with "unusually heavy losses," the German war office asserts. Where the czar's troops scored a success, a German counter attack is now in progress.

This statement, as those of the whole week past, indicates the German lines in western Russia have been considerably thinned by the withdrawal of troops for the Balkan theater.

An aerial bombardment of Minsk is reported by the German statement, adding that "five loud explosions were heard" and one large fire was observed.

EMBARGO IS THE CAUSE OF DESERTIONS

Followers of Villa Are Fleeing
Across Border.

El Paso, Tex., Oct. 16.—Defections from the Villa ranks in Juarez followed the action of General Tomas Ornelas, the garrison commander, in quitting the town and coming to El Paso with the announced intention of remaining on this side. Dr. Villareal, chief surgeon of the Villistas, followed. Others who came across the line and declared their intention of remaining here were Luis R. Montfort, mayor of Juarez; Esquivel Morales, chief of police, and Miguel Pollar, chief of the secret service. These defections were all admitted in Juarez, where it was also announced that Hector Romos, chief of the Villa secret service on the American side of the line, has resigned.

It is stated that the blow which caused so many defections from Villa's ranks in the last two days came when the United States placed an embargo on exports and imports out of and into Villa territory, thus shutting off every source of revenue to the Villa government and officials. Under the order to hold exports from Villa territory for inspection here, all cattle, ores, hides, cotton and other products which Villa has confiscated in the past and sold into the United States with impunity may now be claimed by their rightful owners upon proving title at the border. This will shut off the last source of revenue to Villa.

Villa Assassinated?

El Paso, Tex., Oct. 16.—An unconfirmed report here and in Juarez is to the effect that General Francisco Villa has been assassinated west of Casas Grandes by one of his generals, and that his brother, Hipolito Villa, has been killed south of Juarez at Villa Ahumada in a revolt of the garrison stationed there. The report of a revolt of the garrison is confirmed.

COMBINE AID TO COMMERCE SO THEY SAY

Defense In the New Haven Suit
Outlines Case.

New York, Oct. 16.—Twelve men, acceptable both to the government and the defense, were selected as a jury in the United States court to try the case of the eleven New Haven railroad directors and former directors charged with conspiracy to monopolize New England's transportation facilities. The selection came after 236 men had appeared before the court to be excused altogether or held in reserve.

There were two significant developments in the case. The first was the outlining of the main phase of the defense in the questioning of talesmen by Delancy Nicol, for the defendants, and that was that, instead of being an unlawful combination harmful to the commerce of New England and other states mentioned, the consolidations were not "unlawful" under the Sherman act and were beneficial to commerce. The second was that of the talesmen examined, men in almost every walk of life, more than one-half of them were flatly opposed to the operations of the Sherman act.

Here are the twelve men selected: Stephen D. Hirschman, real estate; Max Hartman, dress goods broker; Albert H. Weldon, vault light builder; Thomas N. Pell, secretary; Frank S. Douglass, salesman; Fred C. Bonny, secretary; James H. Carton, manager; Joel Krous, real estate; Peter Wagner, retired builder; C. A. Flint, electric heating engineer; Henry C. Dater, real estate, and Andrew L. Grace, electrician.

SHANKLIN QUILTS MEX. CONSULSHIP TO HANDLE OIL

Washington, Oct. 16.—Arnold H. Shanklin, for years United States consul general at Mexico City, announced his resignation. He will be associated with the Pierce Oil corporation as general representative in Mexico. Since April, 1914, when the American forces took Vera Cruz, he has been most of the time at that place, as he could neither remain at his post in the capital after the attack on Vera Cruz nor return there as consul general until some government had been recognized. This summer he returned in charge of the American Red Cross relief work, but owing to friction with the Brazilian minister to Mexico, then in charge of the affairs of the American embassy at Mexico City, was called home.

Cincinnati, Oct. 16.—The federal court disapproved of the contract made by the Chesapeake and Ohio Railroad company and the Hocking Valley Railroad company with E. M. Poston, a coal operator of Columbus, for disposal of interests of two coal companies, the Buckeye Coal and Railroad company and the Ohio Land and Railroad company. The decision is regarded by District Attorney Bolin as a further victory of the government in its fight to secure a complete separation of the railroad and coal interests of the alleged trust.

COUNT LOUDEN IDENTIFIED BY ALLEGED WIVES

New York, Oct. 16.—Max Lynar Loudon, also known as Count Loudon, who was arrested two days ago by federal agents, was indicted on a charge of bigamy. The indictment was returned after both of Loudon's alleged wives had appeared before the grand jury.

The first to appear was Mrs. Frederick Arnold of Poughkeepsie, N. Y. She was accompanied by her son, Max, twenty-one. Loudon was in line with eleven other men, but Mrs. Arnold identified him instantly. She testified that she married Loudon at Poughkeepsie in 1893, but obtained an annulment after her husband disappeared. Mrs. Rose O'Brien of Albion, N. Y., identified Loudon as the man who was married to her under the name of Max Lynar in 1912.

England Admits Grave Menace

The proposal, now made public, by England and France to abandon the campaign to force the Dardanelles is the most serious backward step yet proposed by either of the contestants since the war began.

England and France have spent scores of millions of dollars and sacrificed the lives of thousands of brave soldiers in an attempt to open the door to Russia. The natural strategic strength of the position reinforced by the tremendous fortifications of the Turks, the Ottoman forces under the direction of German and Austrian masters in the game of war have made of every effort a complete failure and have demonstrated that the loss of treasure and blood has all been in vain.

The failure of the English diplomacy in the Balkan situation came at the most unfortunate time for the cause of the entente allies.

Indeed the gaining of assistance from Bulgaria and Greece would have resulted in greater benefit to the cause of the allies than has the entrance of Italy into the war.

The open and frank acknowledgement of the British statesmen, in parliament, advocating the abandonment of the campaign against the Dardanelles, that it is better to admit defeat now than to be compelled to do so later on.

English military experts do not deny that the task of checking the drive of the central power allies through Serbia will be one of the utmost difficulty and will require all of the available force at the command of the English and French.

Indeed the fear for the safety of Egypt is not denied in British official circles.

While the losses of the Germans in the Serbian campaign thus far have been appalling, yet all efforts to check the invaders seems fruitless.

England sees the necessity of concentrating her forces and has therefore not only determined to do so but with a frankness that is worthy of praise openly concedes her danger and her fears.

Speaks After Long Silence

Ex-Governor James M. Cox has at last broken the silence which he has maintained, regarding the administration of the affairs of state, ever since his retirement from office.

The ex-governor has certainly not burdened the public with frequent expressions of his views since his retirement.

The attempt of political friends and opponents to cause him to break his silence have all resulted in flat failures until Thursday of this week.

Even when the existence of the workmen's compensation law, one of the measures which the ex-governor always regarded with especial pride, was threatened by the ruling of State Insurance Commissioner Taggart permitting liability insurance companies to write employers' insurance in competition with the state and thus practically eliminating the compulsory feature, the ex-governor refused to speak in criticism.

When, however, one of the Ohio workmen who would be affected by the destruction of the law, wrote and asked for his views the chief executive during whose official term the law was enacted, spoke.

In his arraignment of the present state administration the ex-governor uses strong language, even charging a pre-election pact with the agents of the liability insurance companies and, lacking in courage to pay the obligation in the general assembly, the administration has sought to even up the account in the ruling of the insurance commissioner.

There is no denying the fact that the compulsory compensation law was one of the most humane and most popular laws ever enacted in Ohio. There is no denial of the fact, either, that its destruction either by the legislature or by a department ruling would be a calamity to both laborers and employers in the state of Ohio.

If the existence of that law is menaced by official ruling unsupported by court decree the interests of hundreds of thousands of Ohio residents demand that someone speak out in protest.

This demand has succeeded where all attempts have failed, in bringing from the ex-governor of the state a vigorous protest and a bitter arraignment of the present administration.

Poetry For Today

THE PLEASANT SMILE.

He was not rich in worldly goods;
No offices he held;
In no one field it might be said
Of him that he excelled;
He managed but to get along,
To march with rank and file,
And yet he was unique in this—
He had a pleasant smile.

While others careworn faces wore,
He smiled his way through life;
He'd had his share of trouble, too,
Of worldly care and strife;
But somehow furrows never came
That mark the weary mile;
His face a benediction was—
He had a pleasant smile.

He made our burdens lighter seem;
Our worries chased away;
His cheery greeting always made
A brighter, lighter day;
What though he never rose to fame,
Or never made his pile?
A monarch might have envied him—
He had a pleasant smile.

Athletic sports and games used to be looked upon as idle recreation with no serious purpose—in fact, as a leaning toward folly that might spell failure in life. A radical departure from this view is succinctly stated recently by Health Commissioner Dixon of Pennsylvania in a recent address. Says he: "A generation ago a business man who devoted himself assiduously to golf or tennis would probably have lost his credit at the banks and would have been looked at askance by his business associates. Nowadays there are thousands of successful middle aged business men who regularly devote a certain portion of their time to rational exercise. This is fortunate. As conditions have changed our cities have increased in size and the environment of business is ever more restricted. Our grandfathers had much open air life thrust upon them. Today it must be sought."

Women can be included with the men as converts to the new idea that outdoor action is a preserver and promoter of health and vigor.

Light housekeeping often makes the grocery bills heavy and the food heavier.

Any man can make a fair to middling fool of himself. But if he wants to go the route he had better put a woman on the job.

Daughter is troubled with ennui. But when mother was a girl ennui was a French name for laziness.

Considering how many dry goods clerks there are, there are mighty few anarchists in this country. What party would you join if you had to wait on a lot of women who can shop for a week and not spend a dime?

LILLIAN LORRAINE

No, this is not an advertisement for a new hot-weather drink. It is Lillian Lorraine, of "Neal of the Navy" fame, celebrating the end of the filming of an episode by having a drink of soda. The new Pathe and Balboa star has "made good" in pictures.

WM. COURTLEIGH, JR., MISTAKEN FOR SAILOR.

The lucky chance which made William Courtleigh, Jr., who plays the lead in "Neal of the Navy", the Pathe and Balboa serial, turn his head, saved him from a forcible application of shoe leather administered by the captain of one of Uncle Sam's warships. Mr. Courtleigh was sitting on the starboard side of the quarterdeck of the battleship, which particular spot is sacred to the use of the captain and his invited guests. He had been working in a number of shipboard scenes, and feeling tired and hot made his way to a portion of the deck that seemed particularly attractive, and sat down to rest. He was arrayed in the costume of one of Uncle Sam's sailor boys, and so caught the eye of the captain who made a rush at him to give him a lesson in discipline. The captain's boot was poised in the air when young Courtleigh turned his head just in time. "Lucky for you, my boy," said the captain, his anger over, "the refreshments are on me!"

FITZMAURICE BECOMES A BOND ISSUE IN HIMSELF.

Geo. Fitzmaurice, the Pathe producer, wears a disgruntled look these days. He only had one scene in "Via Wireless" left to take and ran up against all sorts of trouble over it. "Fitz" wanted to blow up a yacht off the coast of Long Island, but ran afoul of the government. In the first place he had to give heavy bond that after he blew up the boat he would have her raised. Secondly he had to give bond to a tow boat concern and thirdly to a wrecking company. "Fitz" is so plastered with bonds that he dreams of them. "They say there's no market for bonds these days," he remarks. "They're wrong!"

A Safe Bank

We shall consider ourselves highly honored to number as customers those whose first requirements of their Bank is conservatism. From our foundation we have been rigidly and unswervingly conservative in the conduct of our affairs. We have been willing to grow slowly in order to sacrifice no element of strength in the process of growth. Rapidity of growth is no evidence of stability. A stalk of corn attains to a greater growth in one year than an oak sapling does in five—but there are oaks that have endured for a thousand years. Whatever may militate against absolute safety to our depositors this Bank declines.

FRANCHISE COMMITTEE IS GRANTED MORE TIME

Action Upon Application for Heat Power and Light Franchise Postponed Indefinitely—Rush Action Upon Water Street Paving; Also, Passed Up When Three Members of Council Object to Hurry.

The special session of the city council, Friday night, called for the purpose of considering the application of thirteen well known local citizens for a franchise to empower them to bid on electric lights for the city, was held and ended in virtually no action of any kind being taken, the committee on franchises asking for more time and the request being granted by the president of council.

Quite a number of citizens, including several attorneys, were present, and a ten-minute caucus was held in the mayor's private office before the council meeting opened. It was nearly eight o'clock when council convened, and all members were present with the exception of M. Tracey, who arrived sometime after eight o'clock.

The first matter considered was whether the improvement of South Fayette street should extend from East street to Elm street, the old corporation line, the new corporation line, or other point. After some discussion it was decided to extend the improvement to Elm street.

Report was then asked of the franchise committee on the proposed franchise for which application had been made. Chairman Veal asked for more time, which was granted, and other business was taken up.

Sheets asked the engineer to explain the conditions on Water street, Paint and Temple. The Engineer stated that measurements showed the city had 35 feet of right of way on paint street end and 30 feet on the Temple street end, and that the measurements were from the tie ends of the C. H. & D. railroad.

The resolution to pave Water street from Paint to Temple, was read the first time. Sheets moved that the width be 35 feet on the Paint street end and 30 feet on the Temple street end.

Attorney J. D. Post suggested that the paving be extended to the south side of Temple street, and in that way the railroads would be required to construct proper crossings.

An amendment fixing the width at 35 feet at the Paint street end and 30 feet at the Temple street end, was adopted.

Rowe then objected to proceeding with the improvement of Water street until the court decided the injunction case, stating that it seemed that there was a great deal of unnecessary hurry in the matter.

M. Tracey followed with a similar objection and in addition he stated that the city should not pay the entire cost, and that the contemplated improvement was not an emergency. He said it would be impractical to lay paving upon a newly constructed fill. Sheets stated the contractor would give bond to insure the improvement standing the test. Howell said the fill up to the laying of concrete would not exceed 18 inches.

Veal said he viewed the proposal the same as Rowe and Tracey whereupon Whelpley withdrew his motion to have the resolution read the second and third times.

Sheets immediately moved adjournment, and council adjourned accordingly.

FIRST SERVICES IN EPISCOPALIAN CHURCH

The St. Andrews Episcopal church building erected on W. Market street will be thrown open for the first service on Sunday morning at eleven o'clock, although the formal opening will not be held until October 31st, when Bishop Reese will be in attendance.

The Episcopalians are feeling much gratification over being able to worship in their own home.

The new church is a portable steel building, simple in its construction and containing auditorium and choir room.

The interior is cheery and inviting, as well as comfortable; equipped with electric lights and heated with gas. The aisles and sanctuary are carpeted in brussels carpet in shades of green and tan and the pews are of oak.

The chancel and sanctuary is hung with crimson and gold, the altar surmounted with the cross and high candle sticks and throughout the furnishings are effective and churchly.

The "Parish Leaflet" a parish paper which will be published monthly, giving its church news, was issued for the first time this week.

ATTORNEY NAMED TO DEFEND SMITH

Ralph Smith, under indictment for assault with intent to kill, was arraigned before Judge Carpenter, Saturday morning, and entered a plea of not guilty to the charge, whereupon Attorney C. E. Baughn was appointed to defend him and the hearing will take place within the next three weeks.

Smith is accused of assaulting a young man named Johnson, striking him repeatedly with a stone. He is well known in local police circles, having served several terms in the workhouse for various offenses. His long suit is sprinting from the quill when they once give chase—a thing at which he has long since become an expert, with the result that the officers never give him a chance to get away when moving him from jail to court room.

Nance O'Neil

The American Empress of Emotional Drama in

"Princess Romanoff."

Shows that greatest of tragedians, NANCE O'NEIL, at the height of her sublime dramatic power. This play is based upon the world-famous Fedora, by Victor Sardou. It is a mighty drama of clashing passion and plot. Princess Ramanoff, after a chase across two continents to find the man who killed her lover in Russia, discovers the murderer, only to fall in love with him. But unwittingly she has already betrayed him to the hired assassins of the White Czar. How she saves him, and in so doing, narrowly escapes ending her own life by her own hand, makes one of the most thrilling screen dramas ever released.

NOTED WELSH PREACHER

TO VISIT THIS CITY

While attending the annual meeting of the Ohio Synod, at Newark this week, Rev. Gage made arrangements with Rev. Moses Breeze, of New York, the great Welsh preacher of the Presbyterian church, to fill the pulpit of the First Presbyterian church of this city, at an early date.

HON. W. J. BRYAN

MAY SPEAK HERE

There is a movement on foot to bring Hon. Wm. J. Bryan to this city on Friday morning, October 29th, for a speech from the court house steps, and within the next 24 hours it will be known whether the sum can be raised to pay for the special train. Mr. Bryan himself making no charge for his services in a campaign to make Ohio dry.

LEGEND OF THE ROBIN.

Indian Story of How the Brave Bird Got Its Red Breast.

When white men first came far across the sea to this country they found many birds such as they had never seen before. But they found one which they liked best of all. It had a pretty red breast, and they called it robin, for its red breast made them think of a bird back in the old home which they loved most of all.

The Indians had a story about how the robin got its red breast. They said it happened a long time ago, when there was only one fire in all the cold far north.

A hunter and his son kept the fire burning day and night until the father fell ill, and the son had to watch the fire all alone. The great white bear was waiting for a chance to put the fire out so he could have all the north to himself. He saw the boy fall asleep; then he jumped on the fire with his wet feet and put it out.

But a gray robin saw him, and when he was gone she pecked about in the ashes till she found a tiny live coal.

She fanned it with her wings until it blazed out and turned her breast red. Then she flew away to every hut in the cold north. Wherever she touched the ground a fire sprang up, and soon there were plenty of fires to keep the people warm. After that the robin's breast was always red instead of gray. —Exchange.

Why He Laughed.

"What are you laughing at?"

"I was just thinking of my poverty."

"Well, what is there in poverty to make you laugh?"

"It just struck me that if I should by chance strike it right some day how many thousands there are who could honestly say they knew me when I didn't have a dollar."—Detroit Free Press.

Gem Superstitions.

It is said that the amethyst used to be worn to promote temperance and sobriety, the chrysolite to ward off fevers, the onyx worn round the neck to prevent epilepsy, the opal to cure weak eyes and the topaz to cure inflammation and keep the wearer from sleep walking.

How To Vote

On The Proposed Constitutional Amendments.

Voters will observe, when their ballots are presented to them by the election officers next November, that the Secretary of State, following the mandate of the constitution, has had prepared for the use of the voters on the proposed constitutional amendments, ballots which will permit a "Yes" or "No" vote.

In that respect the ballot differs from the ballot to be used in the referendum election to which attention was directed last week.

The ballot to be voted on the proposal to amend the constitution is not difficult to understand.

If the voter wants the constitution amended in either one or all of the particulars mentioned on the ballot he should place his cross mark in the space to the left of the word "Yes."

If the voter is opposed to so amending the constitution he should place his cross mark in the space to the left of the word "No."

Every voter should mark his ballot as above indicated, by placing a cross mark in the space to the left of the word "Yes" or "No" as to each one of the FOUR proposed amendments.

He should mark in the space to the left of each proposal either "Yes" or "No" according to his convictions. "Yes" means in favor of amending the constitution. "No" means against amending the constitution.

Proposed Amendments to the Constitution

Yes	No	ARTICLE XV, SECTION 9. Prohibition of the Sale and Manufacture for Sale of Intoxicating Liquor as a Beverage.
Yes	No	ARTICLE X, SECTION 2. To fix the Terms of all County Officers at Four Years, to provide for their election Quadrennially, and applying the Amendment to Incumbents.
Yes	No	ARTICLE XII, SECTION 12. To exempt Bonds issued on or after January 1, 1916, of the State of Ohio or any subdivision or District thereof authorized to issue Bonds from Taxation.
Yes	No	ARTICLE XVI, SECTION 4. To limit Elections on Twice Defeated Constitutional Proposals and to prevent the abuse of the Initiative and Referendum.

In honor of Mr. and Mrs. Troy Junk, who recently came from Cincinnati to make this city their home, Mr. and Mrs. Elmer Junk entertained at an exceptionally beautiful dinner Friday evening.

A scarlet and green color scheme was carried out in decorations that revealed the artistic skill of the charming hostess and set the rooms aglow with brilliant color. Graceful baskets of scarlet salvia and greenery were placed in the living room and on the buffet and mantel of the dining room.

The table, laid with twelve covers, was a picture, flooded with rosy light from the opalescent glass, changing red and green in its tints, of the dome chandelier, and scarlet tapers burning at the ends. A beautiful mound of scarlet carnations and a single rose in the center, and at each place lay white roses tied with scarlet ribbon.

The color scheme was effectively carried out in the elaborate five-course dinner of delicious viands, which brought the guests into closer and delightful intimacy.

The hostess was looking very pretty in a dainty pink gown of voile and messaline. Mrs. Troy Junk was wearing an elaborate gown of white satin and net, embroidered in pearls.

Both Mr. and Mrs. Junk will be agreeable acquisitions to Washington social circles. The guests who dined with them were Hon. and Mrs. Frank C. Parrett, Mr. and Mrs. Willard Story, Mr. and Mrs. Earl Barnett, Mr. and Mrs. Walter Jones.

Mr. and Mrs. E. N. Holloway extended the hospitality of their handsome home to the evening Eucher Club for its first session Friday evening. The occasion, with its "get together" features and generous entertainment, proved one of much pleasure.

Hon. and Mrs. J. M. Willis entertained at an elaborate dinner Friday evening, Mrs. Virginia Willis, Mrs. Ellen Jones, Rev. and Mrs. Wm. Boynton Gage, Mr. and Mrs. Austin F. Hopkins, and Mr. and Mrs. Scott Hopkins.

The table was exquisite in its embellishment of pink roses and fern.

Mrs. Walter Draper of Cincinnati will give a musicale at Grace church Wednesday, October 27, under the auspices of Woman's Home Missionary Society.

The Mission Study Class was entertained by Mrs. Austin F. Hopkins Friday afternoon with a good attendance.

Rev. W. I. Campbell, former pastor of the First Presbyterian church of this city, has announced his engagement to Miss Caroline Martin, of Washington, D. C.

The marriage will be solemnized on December the twenty-eighth.

The announcement will be received with great interest by the former parishioners and many friends of Rev. Campbell in this city.

NOVEL FEATURES

IN "DOWN IN ALABAMA" AT THE OPERA HOUSE THURSDAY NIGHT.

There is said to be more interesting and entertaining features in "Down in Alabama" the entertainment which the Loyal Daughters Class of the Christian church is going to present at the opera house Thursday night, October 22nd, than one would imagine could be crowded into one entertainment.

A beautiful dramatic picture of the sunny side of a southern plantation home, light comedy characters and situations, with charming local color. The dainty numbers furnished by the "Visitors from Memphis," "Cuddle Up a Little Closer," from the opera "Three Twins," with the 7 Ages of Cuddling—The pretty Japanese lantern drill by 10 pretty girls; the funny picninnies, by 9 little boys; an old time plantation jubilee minstrel scene, introducing the negroes from the quarters, the "Society Sextette," the "Goody-Goody Girls," The Negro Mammy. A large chorus of mixed voices on the old time negro melodies and up to date choruses.

All for a pure, clean laugh and an evening of fare frolic and fun. Mr. Willard who was responsible for the "Singin' Skule Begiment," here twice, and the "Tom Thumb Wedding," is the manager of this fine attraction and will be here in person, supervise the rehearsals and play one of the leading comedy parts. He will be assisted by Mr. Herschel Williams, who will also play a leading comedy part. About 75 local people will participate. Rehearsals are now on and in full swing.

MEN'S SUPPER AT GRACE CHURCH

The every member canvass supper given to the men who are actively promoting this new system for church maintenance, passed off successfully Friday night at Grace church.

Sixty men enjoyed the hot oyster supper with its accompaniment of floral decorations and sociability.

Rev. Stone, Messrs Earl Barnett and Clarence Craig with their assistants, carried to successful completion all arrangements.

The special purpose of the supper was to assemble the men participating in the canvass for Sunday afternoon from 1 to 5 and thoroughly acquaint them with the new system.

The every member plan of church maintenance is one which is being generally installed in churches with marked benefit. It enables each member to contribute his or her quota, no matter how small the amount, and children as well as grownups acquire the habit of supporting the church, and feeling a sense of responsibility.

HIS ROSY DREAMS RUDELY SHATTERED

Charles Acton will now probably become a confirmed pessimist. Misfortune which has clung to him so tenaciously for a long time, got in a body blow Thursday and took a good deal of the joy out of his disposition.

Acton, an inmate of the Ohio penitentiary, was brought to this city last week to testify before the grand jury in behalf of his wife, Mrs. Grace Acton who was charged with arson. Through the sudden illness of Prosecuting Attorney A. P. Minshall, he was kept here for about 8 days, until his fees as a witness finally reached \$13 proportions.

Naturally he had pleasant visions of that money and laid pleasant plans accordingly. Thursday afternoon after testifying, he procured his fee slip and marched jauntily into the treasurer's office only to find out that all of the amount except \$2.09 had been held up by County Clerk Terry to pay costs in a divorce case which Acton had waged in Common Pleas court before being sentenced to the penitentiary for arson. —Chillicothe News.

HAS WILSON'S APPROVAL

Trained Force of a Million Men or More Would Be Available in Six Years—Arsenals Likely to Be Established in the Middle West—Proposition Calls For Increase of \$75,000,000 a Year.

Washington, Oct. 16.—A trained force of 1,000,000 men, subject to call in time of war, will be available in six years if Secretary Garrison's plan for strengthening the United States military establishment is approved by congress.

Details of the Garrison program, which, it is said, President Wilson is going to try to push through congress, has become known definitely. The creation of a new military force, to be composed of young men of approx-

imately college age, is the cardinal feature of the new program.

This new force, now designated as the "Continental," will be made up of young men serving an enlistment term of six years, during the first three years of which they are to spend two months out of every twelve in field service. The last three years they are to be "on furlough," engaging in no active service. Through the entire six years they are to be subject to a call to the colors in case of war.

Mr. Garrison regards this plan as the fundamental of his new policy. He believes it will give the United States assurance that several hundred thousand men, who have had some military instruction, will be available for service with the federal troops the instant they may be called into service. He regards it as the beginning of a new kind of military preparedness in the United States and the most important phase of the new policy which will be presented to congress.

To Resist Invasion.

This entire plan has been worked out with a view to the creation of a force of at least 600,000 men with which a possible invasion of the United States might be met in case of war with a first class power. Mr. Garrison early reached the conclusion that it was impossible to propose to congress the creation of a large standing army. He thereupon decided that the additional men needed after the regular army and the military must be obtained through the creation of some new force. This he sought to bring into being through his plan for giving young men short periods of intensive military instruction in a term of six years.

The first class, the regular army service, will be maintained. For the second class the so-called continental force is designed, while for the third class the militia will remain. Mr. Garrison feels that thus he has opened opportunity to every class of citizens who would care to receive military instruction or would be likely to volunteer in case of war.

While the war department has sought to obtain a first line defense of at least 600,000 men after the proposed scheme is in full operation, it is believed it will produce pretty close to a million men, at all times available for service.

Secretary Garrison's plan calls for an increase of \$75,000,000 in the war department's annual appropriation.

It is reported that four great government arsenals likely will be established in the middle west. St. Paul, Indianapolis and Columbus are favored. It is said the present plants are too near the Atlantic coast. It requires five days to get munitions to California.

OHIO NEWSLETS

Alleged Firebug.

Athens, O., Oct. 16.—Russell Fuller, twenty-five, proprietor of a restaurant, was arrested by deputy state fire marshals on the charge of attempting to burn his place of business. He was held to the grand jury under \$500 bond.

In Second Degree.

Lima, O., Oct. 16.—Nicholas Lopi was found guilty of second degree murder here by the jury, which spent all week hearing the case of the fatal stabbing July 21 of James Patton. The jury deliberated fourteen hours. Patton was killed in a quarrel over a woman.

To Meet at Toledo.

Mansfield, O., Oct. 16.—By unanimous vote delegates to the thirty-second convention of the Ohio State Federation of Labor selected Toledo as the place of meeting in 1916. John A. Voll of Zanesville was elected president. The convention adopted a resolution opposing prohibition.

BRITAIN DECLARES WAR ON BULGARIA

France and Russia About
to Take Same Step.

ITALY ALSO TO AID SERBIA

Austro-German and Bulgarian Forces
Attacking Serbia On Three Fronts,
With the Serbs Resisting Strongly
and Yielding Only Inch by Inch.
Japan Not to Send Army to Europe.
Attitude of Greece.

London, Oct. 16.—In view of the fact that Bulgaria has announced that it is at war with Serbia, Great Britain has declared war on Bulgaria, and France and Russia are expected to take the same step at once. It is expected that Czar Nicholas will issue as "chief protector of all the Slavs," a manifesto to the Bulgarians declaring that King Ferdinand is guilty of treason in joining with the Teutonic allies, the enemies of Russia. The Russian government already has let it become known that a Russian army will be sent into the Balkans as soon as the necessary troops are available.

Italy's aid in defending Serbia against the Teutonic-Bulgarian-Turkish allies is regarded as assured. In Italy's case there is the peculiar circumstance of Italian-German relations to be considered, since these two nations nominally are at peace with each other, in spite of Italy's war with Austria, Germany's ally. This difficulty probably will be surmounted by Italy's sending troops against either

Turkey or Bulgaria, thus not clashing with the German invaders of Serbia directly.

No direct news has been made public here regarding the Anglo-French forces at Salonica and it is not known whether they have advanced or not. The lack of positive information regarding the movements of these troops is attributed to the censor.

The position of the Greek government continues anomalous. A Salonica dispatch says that martial law has been declared throughout Greek Macedonia and that there are persistent reports that Bulgarian troops are concentrating on the Greek frontier. An Athens dispatch says that the Greeks are co-operating with the entente by keeping their army mobilized, thus warding off any possible Bulgarian attack on the base of operations of the Anglo-French expeditionary force.

Japan's Attitude.

The probable attitude of Japan regarding the Balkan situation is indicated in a Tokyo dispatch, which says that both the military authorities and public opinion in Japan oppose the suggestion that a Japan army be sent to Europe.

Dispatches received in London show that Serbia is undergoing increasing attacks on three fronts. The enemy is selecting vulnerable points and is endeavoring to cut the Serbian communications. The Serbs are resisting strongly, yielding only inch by inch. Berlin announces the capture of the Serbian town of Pozarevac, twelve miles northeast of Semendria. The German war office says that "further gains have been made south of Belgrade and Semendria by the army of Field Marshal Von Mackensen. The invasion of Serbia by the Bulgarians also is announced from Berlin, with the capture of heights commanding mountain passes between Belorejik and Kujazevic.

ALLIES ARE AFTER MORE U. S. CREDIT

New York, Oct. 16.—Lord Reading, chairman of the Anglo-French loan commission, stated positively, following the signing of the agreement for the \$500,000,000 loan, that another credit arrangement would probably be effected for the account of England and France within a month or so. He would not make any definite statements regarding the amount of the new credit arrangement, but added that it would probably be more in the nature of a purely banking arrangement than an out and out loan.

It is believed that Lord Reading had in mind when he spoke of a new credit arrangement something along the plan for an issue of bankers' acceptances which has recently been the subject of considerable discussion between the commission and the New York bankers.

GRECIAN KING'S PAPERS STOLEN

Athens, Oct. 16.—Highly important confidential documents, including private correspondence between King Constantine and the Kaiser, has been stolen from the king's desk in the royal palace. Complicity among the king's entourage is suspected.

THE COURTMARTIAL FOR ADMIRAL LITTLE

Washington, Oct. 16.—Rear Admiral William N. Little, United States navy, retired, will be tried by courtmartial on charges of negligence and carelessness in the performance of his duty as inspector of machinery on the submarine K-2. This announcement was made here by Secretary Daniels. This action is almost unprecedented in the navy by reason of the fact that Admiral Little is now on the retired list.

CAUSES OF FIRE

Columbus, Oct. 16.—Lightning and matches head the list of fire causes for August, each being accredited with twenty, so the monthly report of State Fire Marshal Bert B. Buckley shows. Carelessness of gasoline caused ten fires and there were nine fires of incendiary origin. There were 208 fires in the month, with a resulting loss of \$164,750.

ANDY EXPECTS TO TALK LATER

New York, Oct. 16.—Andrew Carnegie, after four months and a half at Bar Harbor, Me., has returned to his mansion in Fifth avenue. His face seemed pale, but his eyes were clear and bright. He declined to discuss the war or the markets, but intimated that on the anniversary of his birthday, Nov. 25, at which time he will have reached four score years, he may have something to say on topics of world news. He expects to spend the winter quietly at his Fifth avenue home.

THE TROSSEAU

Baltimore, Oct. 16.—A large portion of the trossau of Mrs. Galt, the president's fiancée, is being made in Baltimore. Two afternoon frocks, a going-away suit, and several separate blouses destined for the important outfit of the future Mrs. Woodrow Wilson have already been sent to Washington from a fashionable shop on Lexington street. The frocks and the suit were ordered last Saturday.

PROPOSED AMENDMENT TO THE CONSTITUTION OF OHIO.

EXEMPTING PUBLIC BONDS FROM TAXATION.

Be it resolved by the General Assembly of the State of Ohio: That Section 1. A proposition shall be submitted to the electors of the State of Ohio, on the first Tuesday after the first Monday in November, 1915, to amend Article XII of the Constitution of the State of Ohio by the addition of Section 12, to read as follows:

JOINT RESOLUTION.
Proposing a supplement to article XII of the constitution of the State of Ohio, by the addition of a section to the designated section 12 of article XII, relative to the exemption of bonds from taxation.

Be it resolved by the General Assembly of the State of Ohio: That the members elected to both houses concurring therein:

That there shall be submitted to the electors of this state in the manner provided by law, on the first Tuesday after the first Monday in November, 1915, a proposal to supplement article XII by an additional section to be designated section 12, article XII of the constitution of Ohio to read as follows:

Section 12. Bonds of the state of Ohio, or of any subdivision or district thereof, authorized by law to issue bonds, issued on or after January 1, 1916, shall be exempt from taxation.

Be it further resolved, That at such election above referred to this supplement shall be placed on the official ballot, in the manner provided by law and designated as follows: "TO EXEMPT BONDS ISSUED ON OR AFTER JANUARY 1, 1915, OF THE STATE OF OHIO, OR ANY SUBDIVISION OR DISTRICT THEREOF AUTHORIZED BY LAW TO ISSUE BONDS, FROM TAXATION," or in other language sufficiently clear to designate it. If adopted this supplement shall take effect on the first day of January, 1916.

SUFFRAGISTS LAUNCH SHIP OF STATE.

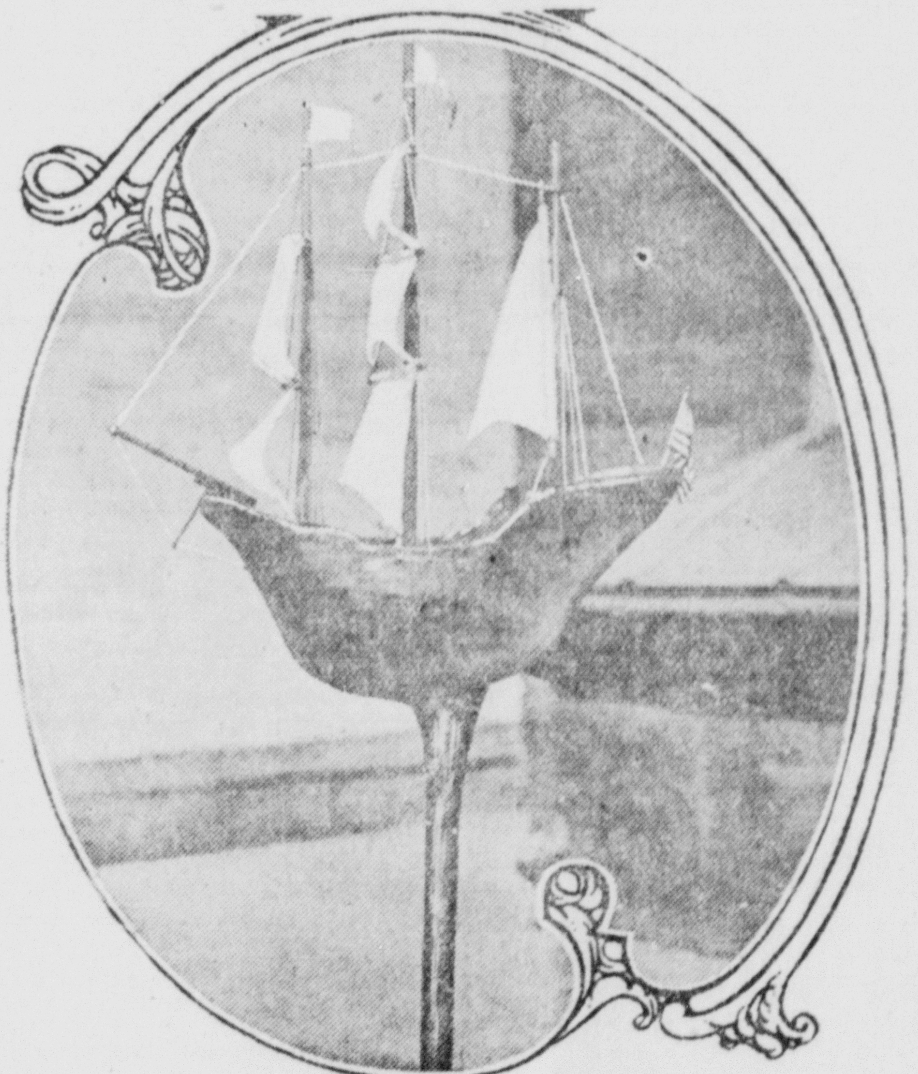

Photo by American Press Association.

Mrs. Henry O. Havenmeyer, the society leader, has adopted a small replica of the Mayflower as her campaign emblem in New York. The ship is perched on a long staff. It argues that if women were good enough ballast on the Mayflower, why shouldn't they make good ballast on the "ship of state" also? At night the ship is lighted with electric lights.

There is one blockade now in force

In Europe the blame for which belongs to none of the belligerents in particular, but must be shared by all, the virtual blockade of Switzerland to the tourist trade. And this is no small matter to the Swiss. The business of ministering to foreign visitors was one of the greatest and most productive of Swiss industries. There are about 4,000 tourist hotels in Switzerland, employing 43,000 persons, with a yearly wage list of \$5,000,000 and \$227,000,000 capital invested. More than \$100,000,000 was spent by tourists in Switzerland in 1913, and all but \$5,500,000, which went for postage, telegrams, telephone calls and railroad charges, constituted gross revenue for the shops and hostleries, the latter taking about 80 per cent of the total. The business in 1914 was only 40 per cent of the normal, while this season it amounted to practically nothing. The ruin of war is not limited to gunshot range.

Whatever happens, the war cannot postpone our national Thanksgiving proclamation nor its nation wide echo. "We've much to be thankful for."

The original belligerents deny having had a hand in "starting something," but they can't deny mixing in at the drop of the hat.

B. & O. OFFICIAL MAKES STATEMENT

Mr. David Hum, Jr., personal representative of Vice-President Thompson of the B. & O. railroad, was in this city Saturday, feeling out the sentiment for and against the proposed union station.

Mr. Hum late Saturday afternoon, stated that he had talked with a great many business and professional men, as well as other prominent citizens, and found the sentiment unanimously in favor of the union station.

He expressed himself greatly pleased with the sentiment existing here, and further stated that he had found Washington citizens up to date and hustlers, and hoped that within a very short time the temporary difficulty over the union station could be adjusted so the work could proceed and the station be erected by early winter.

PRACTICAL HEALTH HINT.

Flat Foot.

Tight shoes are the chief cause of foot ailments and particularly of flat foot. Occupations in which it is necessary to move about a few steps on the feet slowly are another cause. The reason is that the long arch bone of the foot gives away under constant pressure.

Flat foot can be cured to a degree at least. There are two methods. The easiest and quickest is to place inside the shoe a carefully molded arch which is made of metal and does not look unlike a broad shoe horn. This, if properly fitted by an expert, will relieve the pain which comes with a broken arch. It will make walking comfortable and so give the weak muscles a chance to build up. The best way is to begin with a rather low metal arch and increase its height as the muscles tune up to their proper standard and position.

The other way is to take a series of exercises, including skipping, dancing, rising on tiptoe and bending the ankles in and out. This, combined with proper food, plenty of sleep and fresh air, will gradually strengthen the foot muscles. It is a longer method, but its results are more permanent.

THE SQUEEZE PLAY.

Its Success Hangs on the Batter Hitting the Ball to the Ground.

The squeeze play is one of the prettiest in baseball when successful. When it fails no play makes a ball team look more foolish. The play is best worked with one out, a runner on third and a run needed to either tie or win the game. Many of the best base runners when about to make the play create the impression that there is no intention of pulling it by taking only a fair lead off the base and standing still. The very moment the pitcher starts his movement the man on third tears for the plate.

If in any way the intention to use the play is tipped off or foreseen it is an easy matter for the catcher to break it up by calling for a waste ball that is so wide of the plate that it is impossible for the batter to hit it. It is an easy matter to touch the base runner out and make the team trying the squeeze appear ridiculous. But a successful completion of the play usually puts the team in the field in the air and makes them look equally foolish.

The squeeze play does not call for a hard hitter or a good batter, but it does call for a man with a good eye, a fellow who invariably hits the ball, even though it may not go safe. If the batsman bunts the ball in the air an easy double play is usually the result. If he is able to keep the ball on fair ground there is seldom a chance to stop the run at the plate. It is not necessary to have a fast man on third to make this play, for most of the play depends on the ability of the batsman to keep the ball on the ground.—Billy Evans in St. Nicholas.

THE YOLK OF AN EGG.

It is Good Predigested Food, While the White Is Not.

It has long been known that many persons cannot eat even perfectly fresh eggs without suffering all the symptoms of violent poisoning.

The egg has two parts—the yolk inside and the white outside. The white is the part of the egg that the chicken is made of—the part that makes the bones, the feathers and the flesh. The yolk, however, is what the chicken lives on. It is a dinner basket placed there by nature for the infant chicken. It is a little lunch put up for the young life within the egg to support it until it gets out of the shell, for the chicken must eat inside the shell as well as outside, and the yolk is a little bundle of predigested food that nature has prepared for the chicken to eat before it emerges into the world.

Thus we see that the yolk is food, whereas the white of the egg never was intended to be eaten. Really it is not fit to be eaten. It has some food value, it is true. It can be utilized under some circumstances, but it is not good food. The yolk is the only part of the egg that really is wholesome food. It is digested very quickly, too, recent investigations showing that the yolk is digested entirely in the stomach. There is some fat in the yolk, there is some protein in the yolk and some carbohydrate in the yolk, and all are digested in the stomach.

The fat of the yolk is of a peculiar kind. It is more readily digested in the stomach than any other fat, although other emulsified fats are also to some degree digested in the stomach.—Dr. J. H. Kellogg in Good Health.

How He Got Along.

An attorney living on the north side was arrested a few weeks ago charged with violating the motor speed law. When his case was called in city court the next day he asked that it be continued for a week. The arrest caused his wife considerable embarrassment, and she spent most of her morning conversations with the neighbors during the next few days in explaining just how it happened.

On the day of the trial one of the neighbors was sitting on the porch as the attorney returned home. "Hello, Jack," said the neighbor. "How did you get along in the police court?"

"Fine!" yelled the attorney; then he whispered, "Twenty-five and costs."—Indianapolis News.

PRACTICAL HEALTH HINT.

Carbuncles.

Very often a carbuncle makes serious trouble and in the case of the old and debilitated may cause death. The disease is caused by the introduction of pyogenic germs into the hair follicles of the skin, and this suggests that scrupulous cleanliness is the best preventive. But unfortunately this does not always prove effective. Carbuncles seem to select their victims among those who are particular in matters of cleanliness quite as often as among those who are more careless. These victims are likely to be afflicted with some debilitating disease, which complicates matters and increases the danger.

There should be no dallying "home treatment" of a carbuncle. It is a condition demanding skilled medical attention and may even require active surgery. So the sooner it is taken in hand the sooner its victim will be rid of his painful tormentor.

LESSON OF THE LETTERS.

A Warning the Thoughtful Old Lady Gave the Headless Young One.

They were two women, one young, radiant; the other gently, beautifully old.

"But, auntie, it's such fun."

The older rose.

"Wait."

In a moment she had returned. Two faded, yellow letters lay upon the young girl's lap.

"Read them."

Wonderingly the girl obeyed. The first read:

"Dearest—I leave you to John. It is plain you care for him. I love you. Just now it seems that life without you is impossible. But I can no longer

doubt. If you cared there would be no doubt. John is my friend. I would rather see you his than any other's, since you cannot be mine. God bless you.

The other:

"Beloved—I am leaving you to the better man. For me there can never be another love. But it is best—it is the right thing—and I am—yes, I am glad that it is Will you love instead of me. You cannot be anything but happy with him. With me—but that is a dream I must learn to forget. As ever and ever.

JOHN.

—Joseph Hall in Life.

If the United States diplomatic and consular services are to continue in charge of the affairs of more than half of the world, besides those of the home government, something will have to be done by congress to aid them in their prodigious task. The emergency fund, which ordinarily amounts to \$400,000 a year, will have to be doubled at least, according to estimates of the house committee on foreign affairs. The normal duties of our consular force have increased by the opening of new lines of activity and the broadening of old established fields of inquiry into conditions of foreign trade, industry and agriculture. The extraordinary duties imposed in consequence of the war have doubled the work and more than doubled the responsibilities.

Under a new law Holland is preparing for national defense. Holland's position among the military nations furnishes the excuse for army increase and all that. The number of instructed soldiers will increase from 330,000 to 550,000. Every able-bodied man will be trained to serve the state if attacked. Even the presence there of the Temple of Peace and the machinery of international arbitration does not tempt the Hollanders to live in a state of unpreparedness.
